Worldwide Delivery

Dear Client,

Keeping your customers coming back and attracting new ones is becoming more critical each day. Every penny counts, and reducing costs is a massive challenge in market-facing razor-thin margins.

At Best Cutting Die, we know how hard it is to mobilize, add capacity, and shift focus to high-demand technologies and products.

That is a lot - especially on top of everything else you're managing, as the world awaits the end of this Coronavirus pandemic and braces itself for the resulting economic fallout.

That's why we put together this presentation. We've listened to the challenges you told us about and have crafted this presentation to guide you, solve your problems, and help you overcome them.

The process is simple. Just read through this brochure and call us. We'll go through all YOUR MOST PRESSING NEEDS, and then we will send you our customized proposal.

When agreeing, we will tailor your product to perfection, and we will deliver it promptly, saving you worries, time, and money.

Don't waste another day stressing your non-woven, medical, personal care, and other rotary converting industry problems. Leave them in our care and get ready to focus on other pressing aspects of your business!

Your loyal manufacturer,

Larry Parento
President

John Scintee
General Manager

DO YOU CURRENTLY NEED:

- ⚙ *Complete rotary die services, solid and segmented for the non-woven and medical industry?*
- ⚙ *Faster, more dependable rework services?*
- ⚙ *A quote for your project?*
- ⚙ *Engineering services for your projects?*
- ⚙ *The support of our experienced team to turn your ideas into reality?*

Tungsten Carbide High Speed Panty Liner Cutter

Tungsten Carbide Winged Cutter

Adult Diaper/Pant Die

Keeping your machines running and limiting downtime is challenging enough. Looking for solid tooling to incorporate quality features and after-sales quality service, and quick turnaround times can feel daunting.

We get it! It IS a lot to think about.

The truth is, you should not worry about all these details. You did not go to school to build these features in your tooling. We did.

It is why we want to eliminate all tooling worries from your agenda!

BEST Cutting Die tailors to perfection and promptly delivers the best fit for your needs. Products are manufactured entirely in-house and under our control.

We also provide re-sharpen/rework service for our tools and tools from other manufacturers, as well.

How We Can Help

Our knowledge is not limited just to simple rotary dies and anvils. Our expertise meets your challenges and includes the design and manufacture of various machine parts and complete cutting, embossing, and crimping units. You'll be surprised at how much you would benefit from partnering with us.

Embosser

Dot Crimper Die

Side Notch Unit

Pulley Drive System

Standard features incorporated in our dies and modules:

- Rugged frames manufactured from thoughtfully chosen materials for extreme rigidity and resistance to vibration.
- Hardened tool steel bearing housings to maintain precision tolerances for years of service.
- Hardened, adjustable gib for ease of assembly, disassembly and minimal wear.
- All critical surfaces are precision ground.
- Heavy duty precise micro adjustment systems and bearing ring systems to maintain accurate settings in adverse manufacturing conditions.

Feminine Care Units

Tungsten Carbide Dies

Manufactured to the highest standards, Tungsten Carbide allows our customers a much higher number of cuts and increased run-time / up-time before sharpening is required.

Tungsten FemCare

Tungsten FemCare

Carbide Removable Insert

Embossers, Crimpers & Ultrasonic Bonding Rolls

Embosser

Embosser

Crimpers

Embosser

A complete line of embossing, crimping, and ultrasonic bonding rolls for the soft disposals and medical industry. Complex patterns and reliefs in fully hardened tool steels are available in a wide range of sizes and configurations. TIR of .0002 inch (.005 mm) or less is still guaranteed regardless of size, with quality precision.

Diaper Pant/Pull-Ups Units & Dies

Our rotary dies and units are based on superior craftsmanship featuring all in-house die manufacturing capabilities including vacuum heat treating, cryogenic freezing, CNC machining, and "state-of-the-art" testing and inspection equipment.

What Customers Say About Us

✓ *"Hi Brian! First let me say that I truly appreciate all the effort you've put in to partner with us on this solution. I know this virus has created a tremendous amount of uncertainty and additional work for our suppliers, and I'm grateful you've been able to confirm this timing. The plan you've outlined below will meet our schedule.*

Thank you. Stay safe and well! Sincerely, C.G."

Non-Woven Customer, Oct 2020

✓ *"Can't believe how fast we received our dies, anvils and crimpers!"*

Non-Woven Customer

Our Legacy

Ed Porento and John Jacobson, starting on a small scale founded BEST Cutting Die, in 1966. After many expansions and John's retirement, Ed Porento has grown BEST Cutting Die to 100,000sq.ft /9,290sq.m of manufacturing space with over 130 full-time employees. The family commitment to delivering quality to customers has resulted in BEST Cutting Die being honored numerous times as "supplier of the year" by leading manufacturers in the converting industries.

Although Ed is no longer with us, we strive to continue to lead in the development and manufacturing of the most advanced cutting, embossing, perforation, scoring, and crimping technologies for customers in the converting industry worldwide.

We proudly deliver our products to

5

continents

82

countries

Don't waste another day stressing your non-woven, medical, personal care, and other rotary converting industry problems.

Leave them in our care

and get ready to focus on other pressing aspects of your business!
